MONOLITHIC MEMBRANE 6125

CLASSICS

*"We shape our dwellings, and
afterwards our dwellings shape our lives."*

Sir Winston Churchill, 1960

2003 Los Angeles, CA
Architect: **Frank O. Gehry & Partners (now - Gehry Partners, LLP)**

Cover: Walt Disney Concert Hall

FOREWORD

Monolithic Membrane 6125®, the original rubberized asphalt waterproof membrane, could not have achieved its iconic status over the past 50 years without an incredible amount of dedication by a team of energetic people who have a passion for their work.

Over two billion square feet of Monolithic Membrane 6125 have been successfully installed worldwide on projects in over 36 countries since 1963. Our other best-in-class brands include the Ultimate Paver® Assembly and Garden Roof® Assembly – helping our customers achieve sustainable building practices while beautifying our living environment.

Our business philosophy is based on integrity, quality, accountability, and respect for all members of the construction team. It's been an honor to interface with the

premier architects, builders, developers, and owners on some of the most prestigious and important structures of our time.

Enjoy the gallery of these magnificent projects, which represent a small portion of the totality of our work. We have had fun along the way and are excited about the opportunities and challenges that lie ahead. We hope you'll be included in our next Classics Gallery.

Rodney Lind

Associate

Skidmore, Owings & Merrill LLP

“Monolithic Membrane 6125

became the standard bearer for

our roofing and waterproofing

specifications. In addition to the

superior performance of their

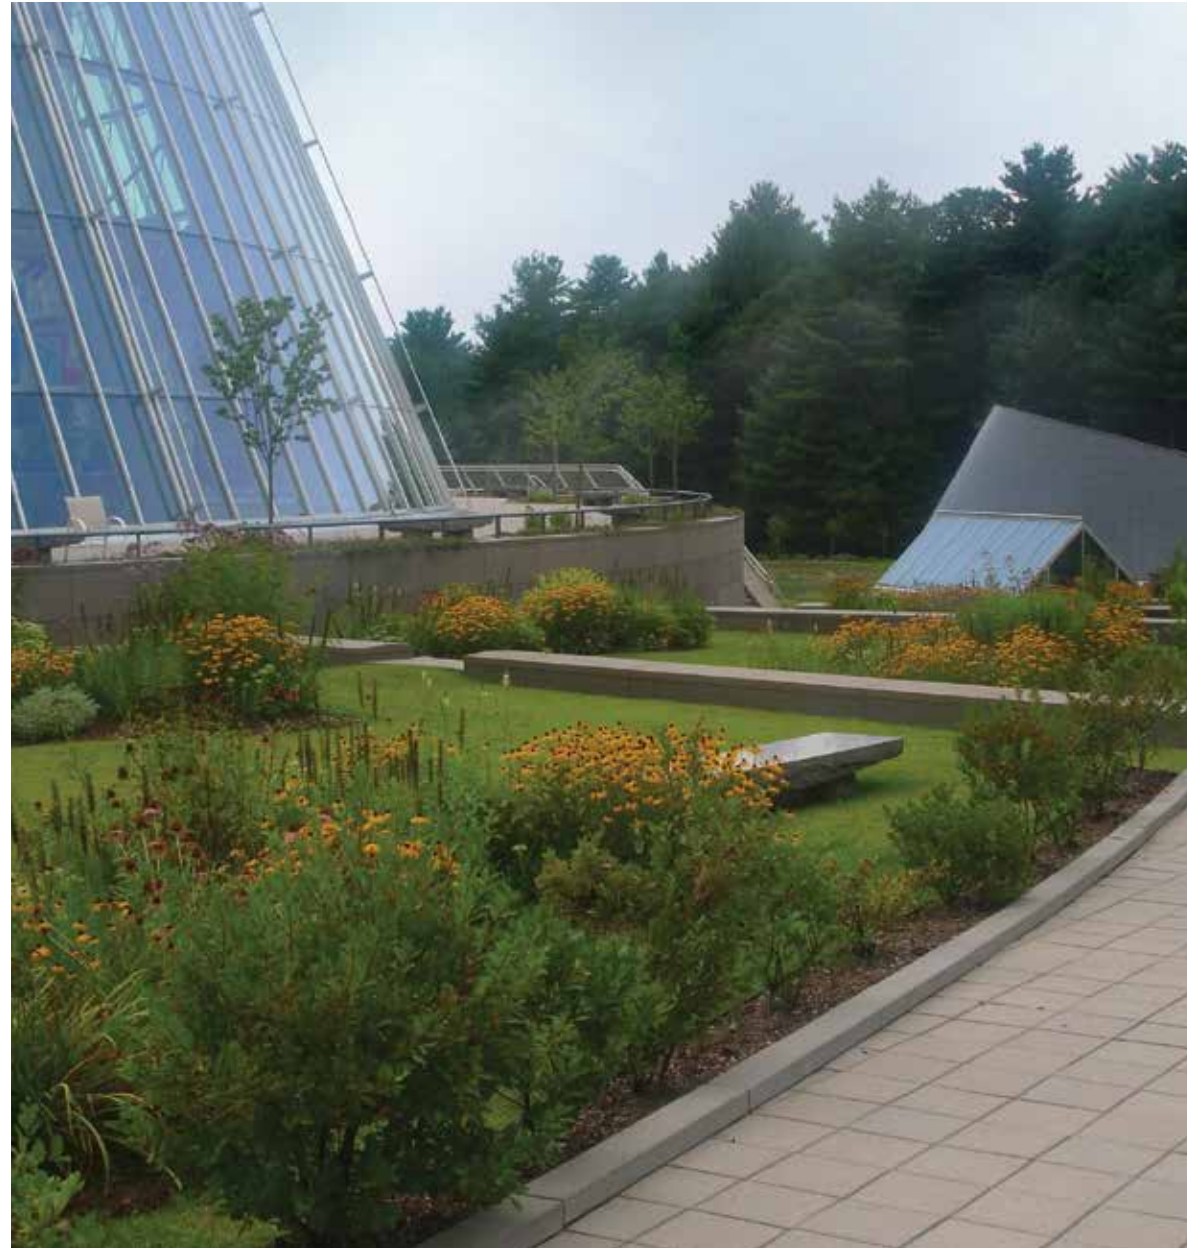

products, the technical support

and attention to project details

are the primary reasons we

continue to enjoy working with

American Hydrotech.”

CONFIDENCE

Tim Taylor

Director of Specifications
Gensler

“I have specified 6125 for over 32 years on many projects all over the world and, once installed, the clients have never had a single issue with it in service. My confidence in the product and the excellence of the people that make up its global organization remains unshakable after all these years.”
